WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION, COUGHS, COLDS, ASTHMA, BRONCHITES, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS.

THE Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil, which is so nause us to persons generally, is entirely overcome and it can be taken by the most delicate females with pleasure. And as regards the benefit of this article over the clear oil the following case by Prof Stone is sufficient to convince the most skeptical. The young lady was twenty-four years of age.

"Her disease was one of unmixed phthisic which had been expected to terminate in the course of a few months fatally. The upper part of both her lungs were filled with tubercles, and in some places were beginning to soften. The case was evidently a bad one. The treatment of Cod Liver Oil was at first used, but without marked improvement. The Phosphate of Lime was then administered with the oil and the result, as in the case of many others, was soon apparent. The patient was rapidly getting well."

CAUTION.—On account of the great reputation of this Compound for all Lung complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only recipe in the United States for combining the pure Oil with lime in a proper manner. Therefore as you value your health, purchase none except that manufactured by

Admirable Invention!

PATENT SELF HEATING
SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century relieving and facilitating the labor of men by machinery and other modern implements, but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense. This iron combines economy, convenience, saving of labor and despatch, one cent's worth of dry charcoal supplies fuel for a whole days' constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle and possess equal superiority.

TESTIMONIALS.

The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but will last forever.

Boston, Jan. 5, 1853.

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia, Mr. James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us over twenty years) and therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business and the large number of individuals whom he has relieved in a variety of cases, render him, in our opinion, equal, if not superior, to any manufacturer of the article. His father, Dea. Gideon Foster, of Charlestown, was master of the Poor House in that town for upwards of twenty four years, during which period Mr. Foster availed himself of the opportunity, and made application of Trusses to a great variety of cases, with great success, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss that its great excellence consists in its adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a Truss, but none but a skilful practitioner can apply it in such a manner as effectually, and oftentimes radically, cure the complaint.

The experience has convinced us that Mr. Foster has thoroughly attained this knowledge. The certificates of Dr. J. C. Warren and other eminent surgeons, which he has shown to us, fully sustain the opinion we there express.

DR. HAMPTON'S
VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

This article, which has made so many wonderful cures, was discovered by Dr. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 70th year of his age, and is acknowledged by those who have used it to be the *best family medicine in use*, and is *warranted free from all mineral substances*. By its mild action on the Stomach, Liver and Kidneys, it will cure the diseases of those organs, with all Chronic Complaints, as

Dyspepsia, Cough, Asthma, Bronchial and Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Bowel Complaint, Worms, and Nervous Debility,

with all diseases arising from impure Blood. As a Female Medicine it has no equal. It will change the complexion from a pallid to a blooming one.

PROFESSOR ALEX. C. BARRY'S

TRICOPHEROUS, or Medicated Compound,

FOR beautifying, improving, and preserving the Hair, curing cuts, bruises, burns, stings, rheumatism and all irritations of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement; but as the thousands who purchase, use and approve of it, have probably no idea of the enormous extent of the business done by Professor Barry, he gives herewith a plain statement of facts derived from his books, and with them tenders his earnest and hearty thanks to his innumerable patrons.

Professor Barry's accounts of sales for the year 1852, show that during that year about 910 000 bottles of his Tricopherous were disposed of, and that the cash product of this immense sale was nearly $100,000.

This plain unvarnished tale, is a better commentary on the value of the article than any thing its inventor could say. If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts, bruises, burns, skin diseases, &c.—it would not of course be so universally in demand. The wealthy portion of the public would buy it at any price, but Professor Barry has reduced it to a figure so low that the poorest can avail themselves of its benefits.

Sold in large bottles [price 25 cents] at wholesale and retail at the manufactory and depot 137 Broadway, New York and by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c.

SEWING MACHINE!

Secured by Two Distinct Patents!

THESE extraordinary Machines have had numerous diplomas and medals awarded to them, as the best sewing machines ever devised. They now form one of the most attractive features of the Great Exhibition at the Crystal Palace in New York.

The proprietors having perfected their great manufactory in New York are now able to produce the Machines at a cheaper rate, and have determined to give the benefit to the public by reducing the price $50. Hereafter these unrivalled Machines will be sold at either of our regular offices for

$100 Cash, without deduction or discount.

Of the admirable qualities of these Machines for all the work of the Clothier, Tailor, Shoe Manufacturer, Saddler, Carriage Trimmer, Cap Maker and Corset Maker, it is unnecessary to speak.—The character of the machines for these branches of business is established, and they are known and admitted to be the most perfect instruments for the purpose ever devised. The clear profit on each machine is from $500 to $1000 a year, depending on the fineness and difficulty of the work done.—We desire to call the particular attention of Shirt and Collar manufacturers to our machine for stitching fine linen and cotton goods. We can satisfy any person interested that no other machine has ever done or can do this kind of stitching perfectly. The price of the machine includes the necessary articles for using. When ordered, they are packed complete for immediate use, and full printed directions for use furnished.

McFarland's BURGLAR and FIRE PROOF SAFES!

A FEW of these celebrated Safes have arrived from New York and those who are in want of a superior article which has been severely tested for the last ten years in every county, are invited to call and examine them. Read what the *New York Press* say of this safeguard to the late great fire in New York. Further comment is unnecessary.

[From the Journal of Commerce of August 27th.]

"Messrs B. F. Pond & Hitchcock of 56 Water street, oil merchants, inform us that their Safe, (one of McFarland's Fire Proof) at the great fire of the Pearl st House, was exposed for thirteen hours to the combined effects of burning Rosin and other Oils, and a broken Gas Pipe directly under it; it preserved the books and papers in the most perfect order. They were not injured in the least manner.

[From the New York Evening Mirror of Aug. 27th.]

McFARLAND'S SAFES AT THE GREAT FIRE OF THE PEARL STREET HOUSE.—Looking at the ruins of this great fire yesterday, we noticed in Water street several of McFarland's Safes, which were being taken out of the ruins, the insides of which were all in good order. One of them in particular deserves especial notice. It belonged to Messrs Pond and Hitchcock, oil merchants, No. 56 Water street and was exposed to the very hottest part of the fire, being covered with burning oil and spirits and directly under a broken gas pipe from which the gas was escaping in large quantities, and producing an intense heat. It remained in this fiery furnace for thirteen hours, and we are informed by Mr Pond the owner that when opened his books and papers were found to be in a perfect state of preservation, not even being scorched and hardly bearing the smell of fire, thus proving itself a perfect salamander. Every merchant should examine them and convince himself if there are not qualities in some hall dozen others of the same make that were in the fire, and every one preserved its contents from the least damage.

[From the New York Tribune of August 30th.]

The reputation of McFarland's celebrated Fire Proof Safes have kept increasing at the last great fires is in usual preserving their contents uninjured, and saving many thousands of dollars for their owners. The safes have built for themselves a colossal reputation, and are adding to it at every fire. McFarland's motto is "Excelsior."

[From the New York Herald of Aug 29th.]

Another convincing proof of the superiority of McFarland's Fire Proof Safes over all others as a protection against fire is the Safe which can now be seen at the ruins of the great fire on Tuesday night at the Pearl st House, where it was exposed in the oil store of Messrs Pond & Hitchcock, No. 56 Water st, for thirteen hours to the combined effects of burning oil and spirits. Books and papers inside were not even scorched.

☞ These Safes are for sale at No. 49 West Market Square, Bangor.

John S. Sayward, Editor.

WEDNESDAY, SEPT. 28, 1853.

☞ The Democrat and the Jeffersonian, the organs of their respective sections of the Democratic party, are now engaged in the very useful and to us rather amusing business of reading each other out of the "Democratic party," with the idea that as go the papers, so go the sections that support them respectively. From present appearances they each make out a good case against the other, and thus prove that neither of them are truly democratic, but selfish, clannish, having their own and their partisans good in view, rather than the good of the country and the people.

True democracy regards the government as an instrument designed and sustained for the promotion of the liberty the security and the welfare of the people—for these purposes all its powers were conferred, and it should be held to a strict accountability in the active exercise of all its powers for these ends. This is the democracy the people will approve and support, and they are fast getting to that point when the practical working of party shall be the test of democracy rather than clinging to names and to men and to party usages. "Prove your democracy by works, the people begin to say and will by and by say emphatically; and this is the surest and the best test—the only test that should be allowed or thought of. This test will scatter to the winds all the vile demagogueism that has so long cursed political parties.

Judged by this test as well as by numbers, the supporters of the Maine Law are the true democracy of Maine, as they go for having the State exercise its power in law making to suppress one of the greatest evils of our age, the sale and free use of intoxicating drinks.

☞ We certainly recommend to the Portland State of Maine to publish its intended replies to our articles against the purchase of the Massachusetts Lands. It had better to do this, even if the Legislature should determine against every hazzard and every argument, and at an enormous price, blindly to purchase the lands. We should greatly prefer this course, and it would be a little more fair and honest, than to attempt to weaken the force of our articles by talking about the columns of the Whig being mortgaged for the purchase. It is the editor of the Whig, and by the editor we mean the person whose name appears as such, who uses the editorial columns exclusively and he alone wrote every line of the articles against the purchase of the Massachusetts lands, and would have those articles understood as expressing his editorial as well as his personal opinions upon the subject. If the Whig is wrong in its conclusions so are we personally, for our sober convictions have been given freely and fearlessly, unsolicited and unbiased, for we have not the personal interest of one cent in the public lands, nor is our interest likely to be affected in any way by the purchase or non-purchase of the lands.

The State of Maine is in error in its statements regarding our expressing a private opinion in favor of the purchase.

☞ Messrs. May & Marble publishers of the Portland State of Maine have published a very strong card setting forth the character, in an unpleasant light, of Capt. Raymond. We must suspend judgment until we hear from the Captain through his paper the Ellsworth Herald. The card is not an editorial squib but a business and quite serious matter.

Dry Goods!—Our readers cannot be reminded too often of the advantages of visiting the Shawl Store of F. A. Jones & Co., Nos. 1, 2 and 3 Tremont Row, whenever they visit Boston for the purchase of goods. The facilities of this House for selling rich goods cheap are rarely surpassed, and should be duly appreciated.

☞ The frost has at length come and stopped the progress of all squashdom in this region. The tender flowers have suspended their beautiful manufactures, the leaves begin to fall, and indeed all the gardens and fields and forests have quite a fallish appearance.

☞ The Cattle Show to-day, on Summer Street, is expected to be quite a brilliant affair, and all our people must turn out to witness the grand spectacle. The manufactured articles, fruit, &c., will be exhibited at the City Hall where an address will be delivered in the afternoon.

☞ According to the Yarmouth Register, a project is on foot to create an artificial harbor on the south shore of Cape Cod, by opening a passage from the Sound to Salt Water Pond, in Harwich Port.

☞ Dickens has cleared $20,000 from the Bleak House.

Arrest of an Exchange Broker.

Cincinnati Sept. 24.

A man named John S. Dyer was arrested this morning on a charge of keeping an office for redeeming fraudulent bank notes—a charge similar to that against Wm. H. Camman.

Both parties were tried in the Police Court this morning, when Camman was fined $500, and Dyer held to bail in $1,000 for future appearance. Dyer keeps an Exchange office, and is proprietor of the Bank Mirror.

The Fisheries.—The Portsmouth Journal says that, "From information obtained from officers of the Fishing squadron, we learn that there is very little disposition on the part of the English to trouble our fisheries. Many vessels were seen fishing within three hundred yards of the shore, on the disputed grounds, were obtaining good fares, and departing without molestation."

The grand jury of the city of Quebec, has found bills against fourteen persons "for riotously beginning to demolish the Chalmer's Church, and dwelling house," during the outbreak when Gavazzi was lecturing in the Church.

In New York for the week ending September 24th, the total number of deaths was four hundred and forty eight, in Philadelphia, two hundred and three, in New Orleans, two hundred and fifty-three.

There were nine deaths in Philadelphia, last week, by yellow fever.

Bangor Horticultural Society.

REPORT ON FRUIT.

The Committee on Fruit of the Bangor Horticultural Society, have examined the Fruit offered for Exhibition and premium, at the annual exhibition for 1853, and report: The exhibition was highly satisfactory and gave assurance that a healthful progress has been made the last year in the cultivation of choice fruits, and that there is no abatement in the interest felt in this subject, nor in the enterprise of those engaged in it.

The exhibition this, as well as those of previous years, prove very satisfactorily that the growing of choice plums in this vicinity is a successful business, and not liable to meet as many casualties by blight, or wart or insect, as are suffered in many other portions of the country. In Bangor there seems to be no difficulty in raising plums, and fine specimens of this fruit have been exhibited from trees planted in almost every variety of position and under almost every kind of cultivation. If one will but plant a plum tree, a crop is quite sure to come.

The Committee have awarded the following premiums: To Albert Emerson, Bangor first premium of $2. for the largest variety of plums

APPLES.

The exhibition was graced with a rich display of apples, the greatness of the variety showing how desirous growers are to test the different varieties in order to find among them some one that shall be grown as a staple market fruit, long keeping, good eating, handsome and prolific. We have no such apple now in Maine, that is generally known, as the Baldwin, in Massachusetts, and the Swaar, in New York.

It would be of signal advantage to the fruit growers of Maine to find a fair one, good eating, long keeping, sweet [illegible] of a [illegible] the best.

PEARS

The show of Pears was uncommonly fine, showing most conclusively and to the great satisfaction of all that this excellent and popular fruit, reaching over a long season of eating, may be successfully grown in this city. Indeed the stiff and tenacious soil of this vicinity when suitably drained and enriched and subsoiled is the best adapted to the growth of the pear, particularly on the quince stock. The experiments so far made with the dwarf pear on Angers Quince for garden cultivation, have proved eminently successful and satisfactory.

The committee have awarded the following premiums

W & E Goodale, Orrington for greatest variety of pears 1st premium $2,00

— Albert Noyes 2d greatest variety 2d prm $1,00

— J W Chapman best 5 varieties 5 specimens each 1st prm $2.00

— Albert Emerson 2d best 5 varieties 2d prm $1 00

— Orrin Favor Brewer best single variety 8 specimens Flemish Beauty 1st prm $1,00

— Wm P Wingate 2d best single variety Bartlett, 2d prm 50 cts.

— E S Goodhue, Saco for very handsome specimens of the Duchess D'Angouleme, 18 to a peck, a special premium of $1,00

— T Jordan Jr Saco, on 4 varieties of pears, all fine, a special premium of $1,00

The fine fruit exhibited by S. L. Goodale Esq of Saco, the Orator of the Society, was not offered for premium, but for exhibition. Mr Goodale has proved himself a skilful cultivator of fruit and an able teacher in the science on which the art is based. We trust that the society will secure a copy of his admirable address for publication.

The large and excellent specimens of Messrs Little & Nourse, which contributed so much to the exhibition, were offered for exhibition only and not for premium.

Comparative Receipts in 1852 and 1853.

	1852		1853.
June,	$16,884 13	June,	$27 042 17
July,	18,791 54	July,	27 896 49
August,	20,937 57	August,	33,029 42

Increase for 1853, for 3 months $31, 34 84 or more than 55 per cent over the three corresponding months in 1852

The August receipts were at the rate of $1,179 for each working day. This more than pays expenses and interest on the the company's debt. As soon as all receipts are up to $1,000 for a working day, the road will pay 6 per cent, on its cost. This result will be realized at a comparatively early day. State of Maine

Comparative receipts of the Androscoggin & Kennebec Railroad Company, to the quarter ending Aug 31, 1853, and Aug 31, 1852,

1852.	Amount.	1853

Surplus Revenue.—A despatch from Washington states that there are now in the Treasury, subject to draft, *twenty seven millions of dollars*

The ordinary revenue of the year ending June 30, is said to have exceeded that of any preceding year by 9,000,000 dollars, and with exception of the two preceding year by 0,000,000 revenue from customs duties alone was 58,931,860 dollars The surplus over expenditures is more than 10,000,000 dollars

What is to be done with this surplus—is a question which already begins to attract public attention. The politicians of the next Congress will find in it a bone to gnaw, and the Administration will no doubt be stimulated by it to attempt a further reduction of the tariff.

Foreign Indebtedness. We are glad to learn from the Washington Star that the Secretary of the Treasury is making every effort to obtain information necessary to enable him to reply effectively to the resolution of Senator Brodhead, calling for information as to the amount of American stocks &c., held abroad. He has so far obtained about seven hundred replies to his circulars to that end which shed much light on the subject. We greatly mistake if the facts which inquiry will elicit do not show that the United States, with a comparatively small public debt collectively, are in reality individually and through their cities and corporations, larger debtors to other nations than any other country in the world.

To have Large Currants.—The Horticulturist directs that currants be pruned in winter, manured in autumn, every alternate year and the soil be kept clean and mellow till after bearing. To which we may add that if old wood is kept cut away and young shoots constantly springing in its place, something like the renewal system of grapes, but not so close, good cultivation will give heavy crops of fine large currants from the same bushes for a life-time

The Society of Ladies The following pertinent remarks occur at the close of an article on the dangers of College Life, from the pen of a New York Clergyman, which appeared in the New York Times:—

The society of ladies has done much for me all my life long, and it was the salutary, softening influence of such associations that with God's blessing, restrained me from many an excess into which I might otherwise have been led while receiving my education. It is a bad sign when a young man has no relish for such company. Whatever be a man's station in life whether higher or lower, public or private, he will become a better man, and escape many a disaster, if he will listen in due season to the voice of intelligent and the refined among the other sex. Not only do they generally excel us in their nice perception of proprieties of life, and in their tender sense of duty to both God and man, but they are equally before us in their instinctive faculty of foreseeing evil before it is upon us, and of wisely discerning the character and motives of men. It was not all a dream which made the wife of Julius Cæsar so anxious that he should not go to the Senate Chamber on the Ides of March; and had he complied with her entreaties he might have escaped the dagger of Brutus. Disaster followed disaster in the career of Napoleon, from the time that he ceased to feel the balance wheel of Josephine's influence on his impetuous spirit. Our own Washington, when proper and quite [illegible] and those who knew the judgment and elevated purposes of Mrs. Washington thought all the better of him for wishing to make her his confidential counsellor. Indeed the majority of men who have acquired for themselves a good and great name, where not only married, men but happily married,—who have paired and matched."

We desire to call the attention of our readers to a very important subject—one concerning their health. The many patented medicines now used renders the selection of a proper one a matter of great moment. We are happy in being able to call their attention to the reliable remedies prepared by the Grafenburg Company of New York, and for sale by S. E. Perkins. These celebrated Family Remedies are certified by some of the most eminent physicians, public men and citizens in this country. They have been used in every section of the United States with great success, and may be relied upon in all cases of disease for which they are recommended. Call for a pamphlet at the agency, read the arguments and certificates, and try the medicine

Holloway's Pills a most efficient Remedy for Bilious Complaints and Indigestion.—A Captain in the Mercantile service, who had traded many years to the West Indies suffered for a considerable time from severe bilious attacks and indigestion depression of spirits bordering on melancholy, a sinking at the pit of the stomach and a continual craving after substantial food he paid an immense sum of money for medical advice without obtaining any lasting benefit and, however extraordinary it may appear he was cured in less than six weeks by taking Holloway's Pills and for the last two years he has not felt the least symptom of bile indigestion, or disordered stomach

Holloway's Ointment and Pills have performed a most extraordinary cure of an inflammation in the side. Extract of a letter from Mr. P. Arnott of Breadalbane, Leith road, Edinburgh dated 29th April 1851. To Professor Holloway—Sir—For more than twenty years my wife has suffered severely from an inflammation in the side, for which she was blistered and bled repeatedly, and applied other remedies, but without any good effect. It was then resolved that your Pills and Ointment should have a trial, and after using them about three weeks a cure was effected. Four years have since elapsed but there has been no recurrence of her complaint.

"DIGESTER." Such is the true meaning of the word "PEPSIN" or of the two Greek words from which it is derived. CAUTION

Dec 13, 1852 d&w

The following is from the principal accountant of the wealthy and highly respectable house of Messrs. Voris & Bro, of this city, and presents one of the MOST WONDERFUL CURES in the annals of medical history.

Mr H G Farrell—Dear Sir. Actuated by a sense of gratefulness, I submit the following as an instance of the utility of your great medicine. My child, three years old, was suddenly attacked with a terrible disease, which in less than six hours prostrated it to total helplessness. The limbs became so rigid that not a joint could be bent; the flesh turned black and cold and entirely deprived of feeling; the eyes fixed, partially closed, and altogether blind; following this was deafness to all sounds; the spine became contracted, and so curved that when lying on its back the head and heels only touched. Indeed, the child presented every appearance of being dead. Immediately on the attack the family physician was called in, and for three weeks he labored to restore it to feeling, but all in vain, although it was blistered a dozen times, and various rubefacient liniments applied. A consultation of physicians was then held, but to no purpose; the case was then brought before the Medical Society, but nothing could be suggested which had not already been done, and the doctor then told me he could do nothing more. We then commenced applying your Liniment freely over the entire length of the spine, and you may imagine a parent's joy, when, after a few applications, returning animation was apparent, and it rapidly recovered with the exception of the sight, which did not become perfect for near a month. The child is now healthy and robust as can be. Five other cases of the same kind occurred previously in my neighborhood, all of which died, when there is no doubt if your Liniment had been used they would have recovered.

HENRY G CLELAND

Peoria, March 1, 1851

A HARD LUMP ON A HORSES BREAST

Mr. H G Farrell. I have used your Arabian Liniment with gratification in several cases, the most remarkable of which was a large lump that appeared on my horse's breast. It was very hard, appearing to be hard gristle, it remained for nearly a year, when I applied your Liniment; one bottle of which entirely cured it. I can recommend it as the best Liniment I ever used. JOHN CRAWL.

Peoria, Feb 20, 1846

LOOK OUT FOR COUNTERFEITS

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G before Farrell's thus—H. G. FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by E. F. Russell, Oldtown. French & Hamilton, Dexter. Geo. Parcher, Ellsworth. P. O. Flaherty, Houlton. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle

As the township is mostly lotted, and all will be soon great and small operators can both be accommodated. In view of the quantity and quality of the timber, (which is mostly spruce, though each team will get some good pine) the favorable nature of the land, and the cheapness and certainty of arriving early at the Boom with whole length stuff the subscriber, after personal exploration does not hesitate to recommend this as one of the best chances to haul Spruce on the Penobscot waters. John Bunyan's Immortal Allegory

PROBABLY no book, save the Bible, has been so extensively read as Bunyan's inimitable allegory

The Pilgrim's Progress.

It has been translated into nearly all the different languages of Christendom, and been perused with delight and holy fervor by all nations Art has lent her attractions to nearly all the forms of Illustration, from the rough Wood Cut to the exquisite Steel Engraving But to the middle of the nineteenth century, and to an American clergyman are we indebted for the only pictorial conception of this immortal work

The novel and sublime idea of embodying the entire story, and transferring the same to a single picture, showing the wanderings of Christian from the City of Destruction" to the Celestial City, presenting at one view to the eye the varied scenes through which he passed, originated with Rev Daniel Wight, of Massachusetts His truly original and beautiful conception was reduced to a most elegant design by Hammatt Billings, and from this design Joseph Andrews the distinguished historical engraver, has produced, after four years of labor, a picture which will take rank among the most superb and elaborate productions of human genius taste and skill

The picture is now ready and will be offered at the Bookstore of the Publishers, and by Agents duly appointed by the Publishers

Self Acquired Fame!
DR JOHNSON'S
AMERICAN ANODYNE
LINIMENT.
For Internal and External Use

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper publicity, has yet acquired a higher and more extended popularity than any other similar compound in the world It is entirely of vegetable extract, perfectly safe to be administered even to the most delicate child and alike astonishing and satisfactory in its effects upon man or beast To those unacquainted with this invaluable medicine we say, Give it a fair trial, and we promise you a radical cure of Coughs Colds Asthma, Bronchitis, Whooping Cough, Influenza, Spitting of Blood and all Lung Complaints, Chronic Diarrhea, and Dysentery in all of which cases it should be used internally The effects of its external application in cases of Rheumatism, Spinal Diseases Sprains Chapped Hands, Bruises, Burns, and all descriptions of wounds are magical Persons troubled with Cramp in the Stomach, Side or Bowels, Sore Throat Piles &c, by a combined internal and external application of this Anodyne, cannot fail of certain and speedy cure The proprietor can produce volumes of testimonials in its favor but prefers to let it carry its own recommendations as it has done for forty years past We ask no man to use it after an unsatisfactory trial In its composition it unites several of the most penetrating and healing specifics known to the materia medica—The inventor of this article was in the constant and successful practice of medicine for more than twenty years

This is to certify that having been troubled for a number of years with a distressing cough and bleeding at the lungs, and receiving no benefit from medical aid in 1848 I was to all appearance in the last stage of consumption. My legs swelled so that I was unable to stand or help myself At that time your Liniment was providentially recommended to me and by the use of three or four bottles I was entirely cured and have since been able to labor every day I have also for the last twenty years been subject to severe attacks of bloody dysentery, and never found any permanent relief until I took your Liniment, since which I have had no return of this complaint. I can truly say I think your Anodyne Liniment was the means of saving my life JOHN I ATKINS
Brewer, Sept 29, 1852.

Dr Johnson Dear Sir—In consequence of having a fever sore on my leg, it became entirely stiff at the knee, and I was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment and by using three bottles, my leg was limbered and strengthened and for a number of years I have been able to use it about as well as the other I consider myself indebted to the use of your Linement through the blessing of Providence, for the use of my leg and would say to others who may need help in this way, try it, and no doubt you will be cured RUFUS CHAPMAN.

To Professor HOLLOWAY

Dear Sir—I am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointment and Pills which has astonished every person acquainted with the sufferer About ten years ago Mr W Cummins, of Saltney Street in this town was thrown from his horse whereby he received very serious injuries, he had the best medical advice at the time and was afterwards an inmate of different infirmaries yet he grew worse, and although a malignant running ulcer settled in his hip which so completely crippled him that he could not move without crutches for nearly 10 years, recently he began to use your Ointment and Pills, which have now healed the wound strengthened his limbs and enabled him to dispense with his crutches so that he can walk with the greatest ease and with renewed health and vigor (Signed) J THOMPSON

To the readers of the Whig

Will you read the Truth.

A MEDICINE must have merit, and great merit too to stand the test of public opinion No art of puffing can galvanise a worthless article so as to keep it alive as a *good medicine* if it be not really so

A good medicine will live, become popular and extend its sales year after year in spite of opposition The people readily find out its virtues and its fame passes from mouth to mouth with more rapidity than newspapers can spread it A living witness testifying to the cure that a medicine has made for him is of far more service than any newspaper advertising

In proof of what we say above we refer you to HAMPTON'S VEGETABLE TINCTURE and its effects Its praise is in the mouths of multitudes The best men in our country give their testimony to its wonderful cures Among them we name Hon Henry Clay, Hon Richard M Johnson, Vice President of the United States and hundreds of others Capt Thomas [illegible] er to the celebrated physician [illegible] France—was cured by it of a [illegible] years' standing after the skill of the [illegible] Europe and America had failed

In the United States Navy it is taken with great success, several officers being cured [illegible] of the Department, Washington speak of its wonderful cures

In fact the rich and the poor, young and old in every place in the city and country find the same success attends its use

HAMPTON'S VEGETABLE TINCTURE is purely vegetable and warranted free from mineral substances This Tincture by its mild [illegible] and safe action on the stomach liver kidneys lungs and the nervous system cures Dyspepsia Liver Complaint Diseases of the Urinary Organs Coughs Asthma Bronchial Affections Consumption, Scrofula Kings Evil Worms [illegible] Gout, Neuralgia St Vitus Dance Fits [illegible] Affections generally Female [illegible] plaints with all diseases arising from impure blood It is a remedy for the various derangements to which the female system appears to be subject

☞ What we ask of the public, [illegible] is to throw aside [illegible] give it a fair trial. We shall [illegible] this paper from time to time testimony [illegible] sons whose reputation is known throughout the United States and who have been [illegible] where other remedies have failed [illegible] and the public will be satisfied that what we say is TRUE after a fair trial

How the Discovery of the Vegetable Tincture was made.

Cure of Consumption [illegible]
BALTIMORE [illegible]

Messrs Mortimer & Mowbray—Gentlemen—It is with pleasure I can testify [illegible] powers of Hampton's Vegetable Tincture My wife had been afflicted for three years under a constant hacking cough with a most violent pain in the right side neuralgia of the head and dimness of sight very little rest day or night and much emaciation and to all appearances a rapid consumption inevitable We had the most eminent physician in Annapolis but his medicine did not give her any relief at all but growing worse if any change in the least, and having read one of your pamphlets, in July last she commenced to try Hampton's Vegetable Tincture, and after taking but two bottles of which (under a kind Providence) we perceived a great change for the better her appetite improved, her skin became quite clear coughs, pains neuralgia &c entirely left her and by the time she had taken four or five more she was completely cured and is now in the enjoyment of excellent health
